

ASSORTMENT
2025

OUR STORY

Formpress is a family business on the island of Öland, situated to the southeast of the Swedish mainland. Formpress was founded in the fall of 1996 and the first tray was produced in the following spring, trays remain the core of our business. Throughout the years the products have become more varied and our birch-veneered trays have appeared in an increasing number of variations. The range has been widened to include products such as coasters, sandwich trays, trivets and serving boards etc.

All of our products are handmade, one by one, crafted in birch veneer harvested from sustainable forests within the Baltic Sea Region. This means that every product that leaves our factory is unique. In short, it is true craftsmanship.

In 2010 and 2016 we updated and expanded our small factory and today we have the privilege to work in new, up-to-date 4500m² facilities. As we were getting cramped this was necessary in order to develop as positively as we have in the past. Formpress today employs about 45 people. Our ability to utilize the know-how that helped found Formpress is just as important to us as investing in new knowledge and the dedication that each individual brings to the company. A growing focus on the international market also places new demands on us.

Our products are parts of the interior basics globally and is neither sensitive to economic fluctuations or trends. By delivering results that exceed expectations we are proud to have gained the confidence of some of the world's leading brands.

A TRAY FROM FORMPRESS

All our trays are handmade, one by one, produced with the finest veneer from birch wood in our factory on the island of Öland. We do not use any solvents or water in our production. We are proud to present a Swedish made sustainable product.

All our products are made from the finest birch wood veneer, apart from serving boards, trivets and our tablemats, which are made of MDF (compressed wood fibre material).

Why choose a tray made by us?

- All of our products can be made with your own custom design
- Manufacturing takes place on the island of Öland in Sweden
- All of our products are layered together by hand, one-by-one
- We are FSC®-certified C141649
- We are certified with ISO 9001, ISO 14001 and audited according to ISO 28000 and SMETA members (4 pillar)
- We digitally print your designs using UV-proof, water-based ink
- Flexibility in small and large quantity orders
- You can easily and quickly order and receive samples and sample collections
- We deliver worldwide
- High quality
- All products are made using recyclable and sustainable materials
- Worn out trays are sorted as combustible waste
- No water is used in our production
- Tough trays, can withstand industrial dishwashing in temperatures up to 95°C
- Sturdy and strong composition and construction, easy and comfortable to hold
- Light-weight, but can hold a heavy load
- Long-lasting quality ensures cost effectiveness

- All of our trays have rounded edges around the rim because:
 - a. It makes the product more comfortable to hold
 - b. The protruding rounded edge acts like a bumper, protecting the lacquer and design from hits and bumps
 - c. The rounded edges naturally divert directed high pressure water and takes less of an impact than a flat surface edge, making the product safe for high pressure dishwashing

WITH YOUR UNIQUE DESIGN

Formpress products make delightful additions to any home, and the only limit to their potential use is your imagination.

If you're looking to expand your collection, our products are an excellent choice for several reasons. They are versatile and eco-friendly though they are built to last. We offer a variety of models, including trays, serving boards, trivets and coasters. Samples are often ready within a week, and we handle orders of all sizes, big or small.

We strive to make collaboration with us seamless and enjoyable. Our team of skilled professionals is eager to assist in the creative process, offering advice, answering questions and ensuring every detail is just right.

At Formpress, authentic craftsmanship is at the heart of everything we do. We take pride in using carefully selected natural materials sourced from long-standing, trusted suppliers, ensuring that every product we deliver meets our high standards of quality and sustainability.

We understand that designers often have unique visions and ideas about what's possible. We're thrilled to explore new solutions and test creative concepts together with you. Let's bring your vision to life!

NEWS 2025: WILLIAM MORRIS SOCIETY COLLECTION

William Morris

William Morris (1834–1896) was a British designer, writer, artist and social reformer. He is best known as a central figure in the Arts and Crafts Movement, which sought to revive traditional craftsmanship in reaction to the industrialization of the 19th century. Morris's work spanned many disciplines and his influence remains significant in design, literature and socialism.

A unique collaboration

The William Morris Society, founded in 1955, is a charitable organization and cultural institution dedicated to preserving and promoting William Morris's broad artistic and intellectual legacy. Based in Morris's former home in London, the society operates a museum that houses many of Morris's original works, manuscripts and personal items. It is also a membership organization that promotes research and actively engages in educational initiatives to raise awareness of Morris's contributions to art, design, social reform and the lasting influence of the Arts and Crafts movement.

William Morris Society + Formpress

Together with William Morris Society, Formpress has access to all the patterns William Morris created during his lifetime and one by one they are now being restored and digitized. In addition to these approximately 500 patterns, there are also around a hundred sketches that were never completed, known as "Hidden Treasures."

Exclusivity

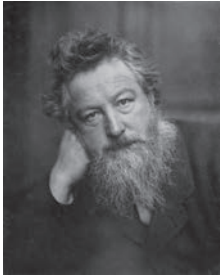

William Morris's patterns are now released because he has been passed away for over 70 years. What makes our products exclusive, in addition to access to our rich pattern bank, is that the products can be marked with William Morris Society copyright, images of William Morris, his signature and the products can also bear your brand and personal touch. Formpress must be mentioned in some way.

"I determined to do no less than to transform the world with beauty."

PROFILING COMPANIES AND EVENTS

A profile product from Formpress is not just practical — it's sustainable, long-lasting, and visually appealing, making it an ideal addition to your promotional product range. Designed for daily use and proudly made in Sweden, these products can feature your customer's unique design or message, offering a personalized touch that stands out, while the back provides space for logo and additional text.

Our flexible production process accommodates both small and large orders, and we make it easy for you to quickly create samples and sample collections. You focus on the message and branding, and we'll handle the manufacturing with precision and care.

To add a professional touch, many of our smaller products can be packaged in either cellophane bags or cardboard boxes with a round window that beautifully displays the design. Packaging is available in convenient 4- or 6-packs, perfect for gifting or retail.

With Formpress, you're not just offering a product — you're delivering a high-quality, Swedish-made item that reflects your customer's brand and values.

TRAYS FOR HOTELS, RESTAURANTS & CAFÉS

At Formpress, we bring extensive experience and expertise to the creation of trays tailored for hotels, restaurants, and cafés. We understand the rigorous demands placed on products in these settings, and we take pride in delivering trays designed to withstand daily wear and tear with ease.

Our trays combine durability, functionality and thoughtful design, making them a top choice for demanding environments:

- **Natural materials:** Our trays are crafted from birch veneer, a renewable and durable material.
- **Exceptional Quality:** Built to last and perform in tough conditions.
- **Sturdy and Reliable:** Strong construction that remains lightweight yet capable of carrying heavy loads.
- **Cost-Effective:** Long lifespan ensures great value for money.
- **Dishwasher-Safe:** Handles industrial dishwashing at temperatures up to 95°C.
- **Ergonomic and durable design:** Rounded edges provide a soft, comfortable grip and better impact resistance. They naturally divert directed high pressure water and takes less of an impact than a flat surface edge, making the product safe for professional dishwashing.

Additionally, we offer the option to personalize trays with your customer's unique designs, ensuring a product that is both practical and visually tailored to their needs.

ECO NON-SLIP

If you are looking for a durable, dishwasher-safe and long-lasting tray with a non-slip surface on part of the front with the rest of the front surface still customizable including a customizable back print, our partly cork covered Eco Non-Slip trays may be what you are looking for.

These trays, just like all other trays we make are made using the finest birch veneer, we are very picky with our materials. Our suppliers know this because they are chosen based on the high quality of the materials they are able to provide.

We have been working on supplying a non-slip solution to our customers for a long time. Along the way we have encountered issues with materials being too non-friendly to the environment or bad smudge-resistance. Our solution is natural cork material!

We are able to offer full cork or partly cork on the front of trays depending on your needs and preferences.

ECO NON-SLIP PARTLY CORK

Eco Non-Slip Partly Cork Is available in four different models, all of which has been optimized for use in restaurants and bars.

- Choose between different models
- The glass is held in place on the partly cork-covered surface while the rest of the front surface is customizable with your own design
- Sampling is quick and easy
- Short delivery times. We are normally able to ship custom samples from factory within one week
- Industrial dishwasher safe
- Made from the finest birch veneer
- Sturdy and strong construction
- The cork surface cannot be guaranteed to be spotless. Due to the natural material used in this product, material discolouration may occur over time

STANDARD DECORS

These are our standard wooden decors, available in various models with a white underside.

DESIGN RECOMMENDATIONS

To help you create the perfect design for your chosen product, we provide design templates for all our products. These templates can be downloaded from our website: www.formpress.com. If you want us to send you the templates, please contact us.

Understanding the templates

The outer line indicates the minimum area your design must cover to ensure complete coverage of the tray. You can find the required size of the original in our Product overview on page 38-41. The center line marks the final edge of the finished tray.

Submitting your design

Please submit your design file **without the template** or with the template included as a **separate, editable layer**.

Before submitting your design, contact our sales team for **pricing details** and to create a customer profile in our system.

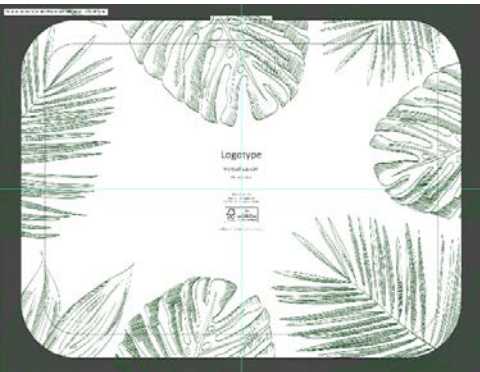

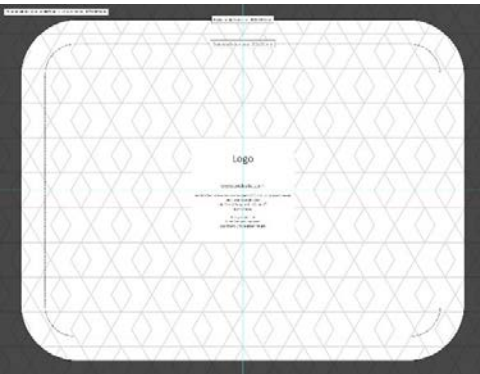

Technical requirements

- **Printing Details:** We print digitally in CMYK, using the Coated Fogra39 color spectrum, and work with uncoated paper.
- **Design Specifications:** Provide your design at a **1:1 scale**, including bleed, based on the selected model's original size.
- **Resolution and Format:** Files must be in high resolution (300 dpi). We prefer **PDF files** saved for High-Quality Printing but can accommodate most formats.
- **File Submission:** Please send your files via www.wetransfer.com.

Important to know

All our products are handcrafted, one by one. As part of this process, minor adjustments to the source image (± 5 mm) may be required during production.

If you have any questions or need assistance, feel free to reach out to us.

PRINTING OPTIONS FOR THE BACK OF THE TRAY

Here are some ideas and guidelines to inspire how you can design the back of the tray:

Background Options

A birch decor or plain white background are the most common choices.

Branding Opportunity

In addition to your company logo, Formpress would also like to be mentioned on the back in some way.

Storytelling Canvas

Use the back to share your brand story, design inspiration, or any meaningful message.

Ink Coverage Considerations

Avoid 100% ink coverage, as it can impact the cost and reduce the tray's durability in dishwashing.

FSC® Certification

Proudly display our FSC® certification to highlight your commitment to sustainable forestry. Including this logo is optional but recommended for eco-conscious branding.

If you have any questions or specific ideas, don't hesitate to reach out!

THE PROCESS

- A TRAY IS BORN

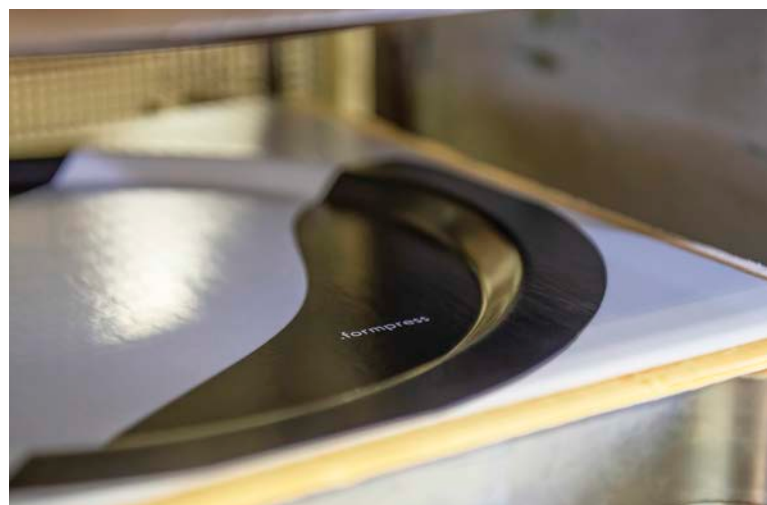

At Formpress, building a strong relationship with our customers is our highest priority. We handle every project with meticulous attention to detail and care, ensuring you feel like a valued member of the Formpress family.

The trays are then individually milled to create our signature feature – rounded edges. These edges not only enhance comfort when holding the tray but also serve a practical purpose. The rounded, protruding edge acts as a bumper, protecting the lacquer and design from impacts and naturally deflecting high-pressure water, reducing wear during cleaning. This makes the trays both durable and safe for industrial dishwashing.

Every product we create is handcrafted with precision, one by one. Our trays are constructed from multiple layers of thin birch veneer, pressed together with the customer's artwork for approximately 8 minutes at +120°C under several tonnes of pressure.

After passing rigorous quality checks, the trays are prepared for shipping to customers worldwide. Each year, approximately 1,000,000 products leave our factory, located on the scenic island of Öland, Sweden, bringing exceptional craftsmanship to homes and businesses across the globe.

FORMPRESS AND THE ENVIRONMENT

At Formpress, we are committed to quality, sustainability, and ethical business practices. Our dedication extends to how we operate, the relationships we build and the products we create — always with the future in mind.

Our commitment to quality and ethical practices

We are proud to have ended 2021 by achieving ISO 9001 certification, an international standard for quality management systems. This milestone underscores our commitment to excellence in every aspect of our business.

Our business is built on close, long-term partnerships with customers, employees, suppliers and other stakeholders. We aim to be seen as a trustworthy, reliable partner by operating professionally, ethically and transparently.

As a company, we adhere to the principles of the UN Global Compact and ILO's core conventions. Our code of conduct is rooted in these values, ensuring ethical practices across all aspects of our business.

We strive to be an employer where people can grow and thrive. We offer regular employment in compliance with Swedish laws and collective agreements, ensuring fair treatment and equal opportunities for all employees. We believe diversity drives success, well-being, collaboration and innovation.

Since February 2022, we have been SMETA (4 pillar) audited, a comprehensive social audit assessing working conditions, environmental practices and business ethics. As proud members of Sedex, we are part of a global network committed to ethical business practices.

To reinforce our resilience and safety, we have implemented ISO 28000, an international standard for supply chain security management.

Environmentally friendly products

Sustainability is a shared responsibility, and at Formpress, we strive to leave a positive impact on the environment. Our ISO 14001 certification ensures we meet global standards for effective environmental management.

We focus on reducing our environmental footprint by:

- Minimizing energy, water and material use.
- Avoiding water, chemical, or solvent use in production.
- Recycling waste efficiently.
- Reducing transport emissions by sourcing raw materials from regional suppliers.

Our products are made from responsibly sourced materials, including birch veneer or MDF, glue, varnish and decor. The melamine resin in our products makes them durable and water-resistant.

FSC® Certification (C141649)

We are proud to hold FSC® certification, a globally recognized standard ensuring that wood-based products come from responsibly managed forests.

This certification reflects our commitment to social and environmental responsibility for the world's forests and the people and wildlife that depend on them.

If you wish to include the FSC® logo on your order, please inform your contact person at Formpress, as it is not added by default.

At Formpress, we continuously work to integrate sustainability into every part of our business. Together, we can create a better future for people, nature, and industry.
